Earth

Here at Liberty Tabletop, we support the preservation of a clean and safe environment. We strive to meet and exceed environmental regulations. Our Upstate NY factory is powered by hydroelectricity from nearby Niagara Falls. We avoid using toxic chemicals and filter all our buffering units in order to avoid polluting our precious community. Our raw materials are responsibly sourced from American suppliers that adhere to strict environmental standards. As part of our

commitment to preserving our delicate environment, Liberty Tabletop has partnered with One Tree Planted and pledges to plant one tree with every Earth pattern set purchased.

Liberty Tabletop Econo Line

Econo-Line by SMI was developed for those who wish to support Made in USA while operating on a limited budget. The flatware has a good weight compared to the sometimes flimsy, economy sets found in discount stores and online. Econo-Line is polished to a three-star finish, also making it superior to most other lower cost sets. While some chafe and other surface imperfections are acceptable at the 3-star level, most will become unnoticeable after a wash and a few days of normal use. Please note that minor imperfections are not considered manufacturing defects. Made from 18/10 stainless steel, the highest grade of stainless used in flatware making, this product will shine for a lifetime. Our Econo-Line is packaged in an environmentally friendly / minimalist plain box in tissue paper which is also recyclable.
